REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the instant claims are allowable over the prior art of record, because the prior art is silent to an electrode for use in an electrochemical cell system, comprising: about 5 to about 95 wt% of a support that is non-oxidizable at anodic potentials of greater than about 1.5 to less than about 4 volts, wherein the support material comprises diamond.

The prior art, such as Hayashi et al., GB 1,252,463, teaches making an air electrode by mixing an active carbon support with a silver catalyst and water repellant (page 3, lines 34-40). The reference is silent to an anode support material comprising diamond. Therefore, the instant claims are patentably distinct from Hayashi.

CONCLUSIONS

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
